

New Projecturf 2.0 Provides Online Project Management with Features Not Offered by Other Project Management Software

The affordable new project management software – Projecturf 2.0 – provides small-to-medium sized businesses (SMB) online project management with features not offered by other project software. This new planning software offers all users feature-rich project tracking and was designed based on hundreds of users’ feedback and requests over several years. More than 60 new features and enhancements have been added – including several which are first-of-kind for project management software.

Los Angeles, CA -- June 3, 2010 -- Small-to-medium sized businesses (SMBs) often struggle to find affordable and intuitive project management software that can be customized to fit their exact project management needs while not being charged for “extras.” Projecturf 2.0 – <http://www.projecturf.com> – is the economical new web-based project management app specifically designed for SMBs in all industries providing each user features not offered by other project management software. Designed based on hundreds of real users’ feedback and requests, Projecturf 2.0 has features and benefits which differentiate it from other project software.

Projecturf 2.0 online project management software offers users the following benefits:

- **Work without limits:** A first in project management software - Projecturf 2.0 provides unlimited file storage space on all business plans with no cap on users, project managers or features. Share and upload large numbers of files without storage restrictions, constraints or additional charges.
- **The “extras” are included for all users:** All plans come with all features. Unlike other planning software, the cost of using Projecturf 2.0 will not increase with add-ons.
- **Free brand integration with logo service:** Branding is crucial for small and medium-sized businesses. As an added level of customization, Projecturf 2.0 offers a free logo service to integrate each user’s existing company logo into its project management software.
- **Get up and running in minutes not hours:** The refined and instinctive interface ensures almost no learning curve. The highly intuitive design of Projecturf 2.0 is a result of years of real users’ feedback - making this sleek project software vastly different from other online project management software.
- **The user dictates how people and projects should be managed:** Projecturf 2.0 was built using SMB users’ feedback and will continue to be improved based on customers’ requests and project management needs. Listening to each customer is a top priority.
